21034-4

Fernald Site During Remediation

Fernald Preserve

Mound Site

- ◆ **Historical use**
 - Established in 1946 to support early atomic weapons programs
 - Originally 182-acre site
 - DOE purchased 124 additional acres in 1983, but never developed them
 - At its peak, the site encompassed 116 buildings
 - Operations ceased in 2003
 - Remediation completed 2010
- ◆ **Post-cleanup status**
 - DOE established Environmental Restoration Program at Mound in 1984
 - 306-acre site divided into several parcels for industrial development
 - ~60% of the site has been transferred
 - Presently 14 businesses with 310 employees
- ◆ **Remediation/Redevelopment Costs**
 - \$1B in remediation costs
 - \$62M spent for redevelopment
