

Reaction to “The Way Ahead”

West Valley Citizen Task Force

Colleen Gerwitz

March 28, 2007

New York State Energy Research and Development Authority

Reaction to “The Way Ahead”

- A concept worth pursuing.
- Many details to be worked out.
- Cautiously optimistic!

Our Understanding of “The Way Ahead”

Interim End State + Enhancements = Enhanced Interim End State

↓ EIS

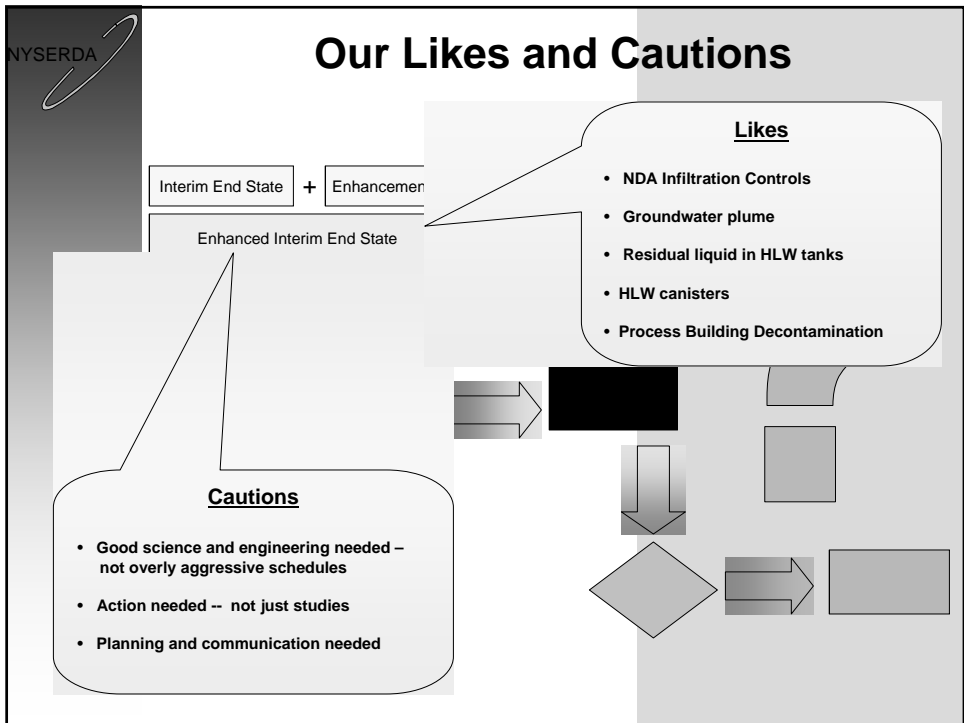

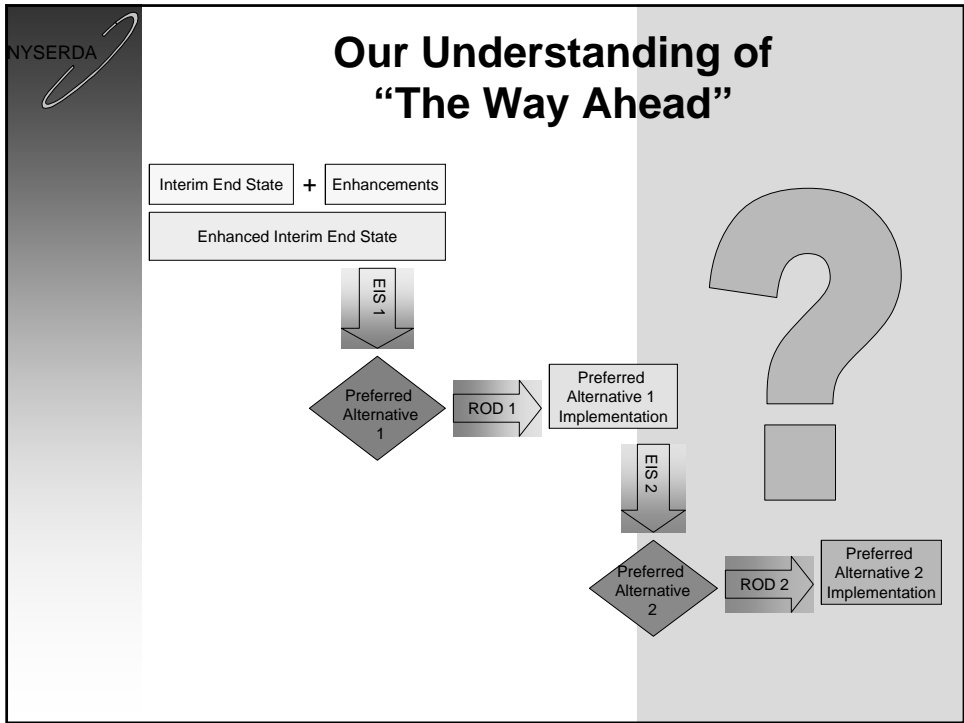

Preferred Alternative 1

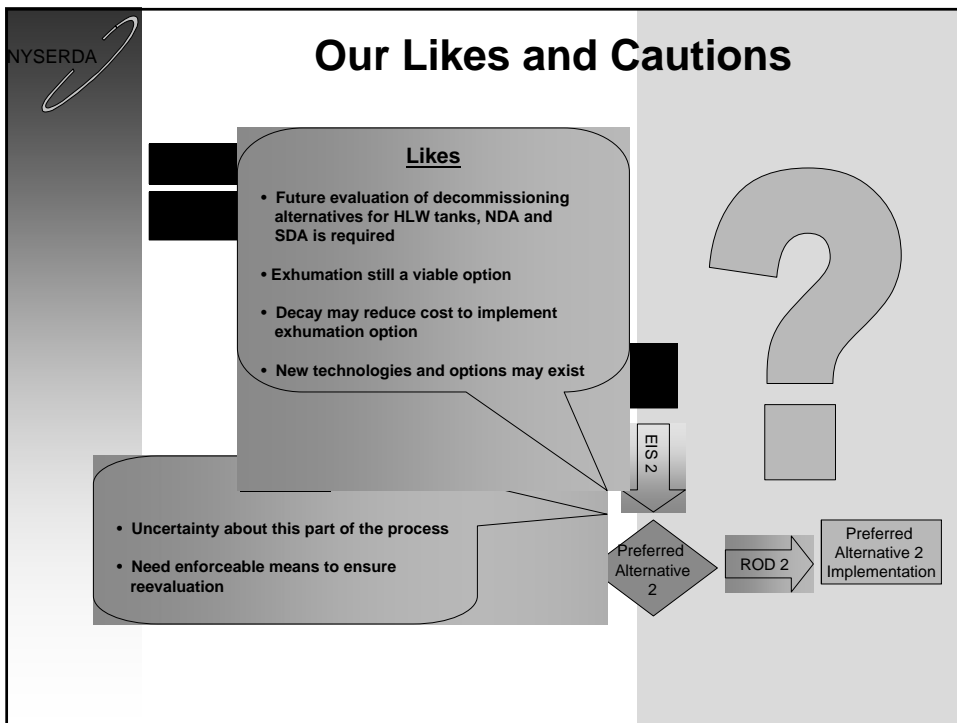

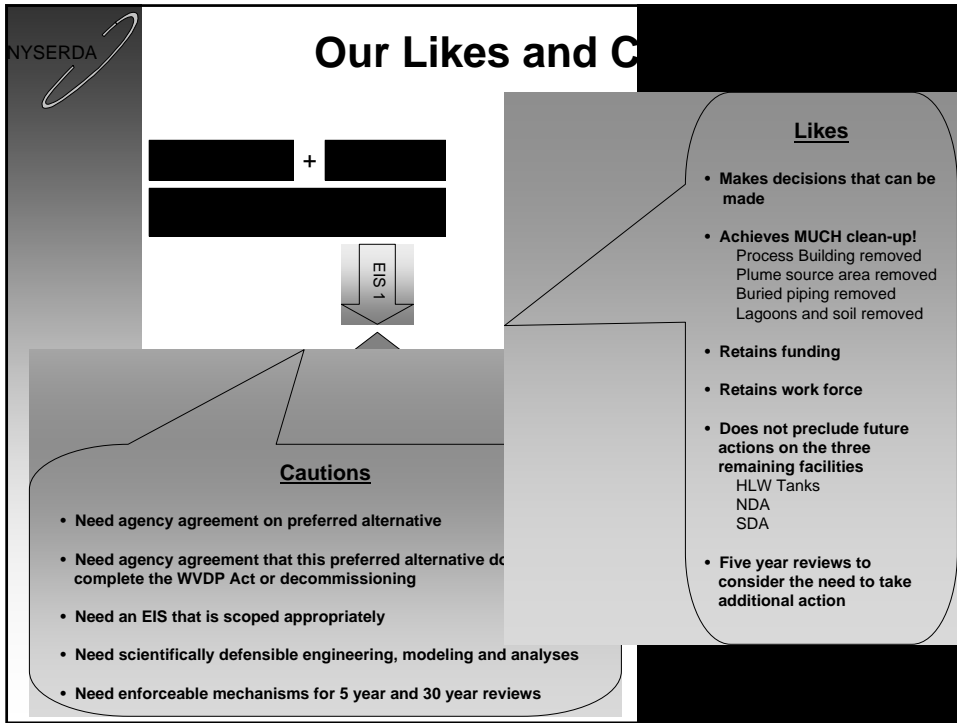

Understanding

- NDA provided with cover and barrier wall
- Groundwater plume mitigation actions implemented
- Residual liquid in HLW tanks removed and inventory reduced
- HLW canisters removed from Process Building
- Process Building decontaminated

Understanding

- **Remove:**
 - Process Building
 - Source Area of the Plume
 - Lagoons
 - Underground Piping
 - Contaminated Soil
- **Contain, Maintain and Monitor:**
 - HLW Tanks
 - NDA
 - SDA
 - HLW Canisters
- **Enforceable Re-Visits:**
 - 5-year Reviews
 - 30-year Decommissioning
 - EIS Reevaluation
- **Not:**
 - WVDP Act Completion
 - WVDP Decommissioning

Reaction to “The Way Ahead”

- A concept worth pursuing.
- Many details to be worked out.
- Cautiously optimistic!
