2017 Year-end Survey

An online survey was distributed to members and alternates as of the end of the year. (The survey was sent to members or their alternate when the alternate is the regular/de facto attendee for the member.) The survey was completed in whole or in part by 14 of the 15 members and alternates who received it. The survey was replicated from the prior year's survey. Answers were based on a scale ranging from strongly agree to strongly disagree with an opportunity for open responses. The answers are depicted in simple donut and bar charts attached.
